## Comput@medic Health Assurance

As someone who has benefited from our services in the past, I thought you might be interested to hear about a scheme we have recently introduced with a view to eliminating the unplanned costs of computer repairs.

With the benefit of more than 10 years experience of PC repair, we find that the vast majority of problems are from software issues – whether it be Adware, Trojans, viruses or just poorly performing applications – and rarely are the problems associated with the failure of the hardware.

The extended warranties offered by the majority of manufacturers are largely intended to protect you from hardware failure – and most will not cover the typical software problems you are likely to encounter.

Our new Health Assurance Scheme is intended to protect your PC from exactly the things most likely to affect you – at a guaranteed price. For as little as £10 per month we will come to your home or office and resolve software problems without any additional charge. If any parts are required they would be charged at market rates as normal.

If you have more than 1 PC we will give you a discount on additional units – 25% for the second and 50% for 3 to 10.

Once enrolled into the scheme you can call us as often as you wish and we will visit you as usual – except there will be no additional charge beyond your monthly subscription. We will even book a six monthly visit free to ensure your PC is running smoothly.

Our current hourly rate is £50 so you can see that the major benefit of this scheme is to eliminate the unplanned expense of a surprise breakdown. There is also justification for you to call us **as soon as you suspect a problem**. Many problems we see are made considerably worse by owners' attempts to repair them. With the benefit of the Health Assurance Scheme there is no financial penalty in calling us immediately.

There is no requirement for you to make a long term commitment – one month is the minimum term - and we reserve the right to terminate the contract with one month's written notice. All initial premium payments for the Health Assurance Scheme may be paid by credit/debit card, cheque or cash at the time of application and all subsequent monthly premiums paid by credit/debit card or Standing Order, arranged directly with your Bank using the form provided overleaf. It is essential that your unique reference number be quoted by your Bank in order that we can track and trace your payments. If you prefer to pay by Credit or Debit Card, including the initial payment, just complete that part of the payment form.

In order to keep the scheme competitive, invoices will be provided on a monthly basis **by e-mail only**.

I wish the following computers to be covered under the Health Assurance Scheme and I understand that each PC will be subject to a 6 monthly examination in addition to any ad-hoc calls throughout the year for which no additional charges will be levied for labour. If any parts are required to effect a repair those parts will be charged at normal market rates at the time of the repair.

6 monthly maintenance and free ad-hoc calls will be subject to monthly premiums being up to date.

**Notes:**

- \* It is essential that you enter a valid e-mail address in order that we can send your monthly invoice.
- \*\* It is not essential to enter the serial number of your PC(s).

Please forward your completed Application and Payment Forms together with your payment of the first monthly premium to:

**Comput@medic**  
**17 The Oval**  
**Oldbrook**  
**MILTON KEYNES**  
**MK6 2TW**

If paying by Standing Order the Authority will be forwarded to your Bank once we have added your unique reference number. This reference number will appear on each of your invoices and should be quoted if you need to place an ad-hoc call at any time. Credit/Debit Card payments will be processed on the same day each month.

**Please note that the date of your first Standing Order payment should be 1 month from the date of your application and initial payment.**
